

Natanael Lima

Analista Programador Universitario

Programmer Analyst with experience in web and desktop application development. Participate in all phases of the software life cycle, from analysis to implementation and maintenance. I excel at problem solving, logical thinking and teamwork. I am looking for a challenging role to apply my skills and contribute to organizational success.

Work Experience

Lovely Dating App

- I developed the personal project "Lovely", a dating application.
- I implemented technologies such as Java, Spring, HTML, CSS, Bootstrap, Angular, Hibernate, WebSocket, Restful API, and MySQL for the development and implementation of the application

Application Management System

- I developed a web system for self-management of applications for job offers in a company.
- I used technologies such as Java, Spring, HTML, CSS, Bootstrap, Thymeleaf, Hibernate and
- MySQL in the development and implementation of the project.

University Project

- I developed a management system for a parking lot.
- I implemented technologies such as C#, WPF, .NET Framework and SQL Server.
- I collaborated and worked as a team to understand and address the needs of the project.

E-Commerce Project

- I developed an e-commerce platform with a control panel.
- I implemented search and filter functionalities to improve the shopping experience.
- I used technologies such as Java, Angular and MySQL.
- Used Spring Boot and Spring Security for the backend, with JWT for authentication and authorization.
